<p>At the top of the table will be another button to unflag the product as "modified" by the application (erases the flag for all cells on the product) so it looks as if it wasn't edited at all by the app.</p> <p>This action is also undoable.</p> <p>Is to be used to clear the flag from products that you don't want to export using the "Save Only Modified" (<a href="#">#129</a>) save feature.</p>
